*Acceptance of all courses from Bellevue Community College, Clover Park Community College, Edmonds Community College, Seattle Community College, Tacoma Community College and Walla Walla Community College are subject to approval by the Washington State University faculty.

GENERAL INFORMATION

This booklet was prepared for community college counselors to help them assist their students to more efficiently plan the program of study for the freshman and sophomore years. These programs are not absolute patterns, but rather guides to effective program development.

Programs have not been included for all areas of study because of the relative freedom in many lower division course patterns. Students following courses not included in this book should refer to the Washington State University general catalog to discover the most appropriate curriculum.

ADMISSION POLICY

Admission to Washington State University will be granted to transfer students whose records indicate a reasonable chance of success. A student must have a 2.00 (C average) to be considered for transfer. Those students with a 2.30 or better are in most cases assured admission. Admission of students with grade point averages between 2.00 and 2.30 will be determined by a thorough study of all available information. Factors most often considered are field of interest, quality of courses, improvement of grades during succeeding quarters, test scores and interviews.

Those students who have completed 24 or more semester hours (36 quarter hours) of acceptable transfer work will be admitted on the basis of college work alone. All others must meet both high school and college admission requirements.

HOW TO APPLY FOR ADMISSION

Applications are accepted from December 1 to August 1 for the fall semester and from October 15 to January 15 for the spring semester. Necessary forms may be obtained at the registrar's office at the community college or from the admissions office at Washington State University.

Applicants will be considered for admission on the basis of work completed at the time the records are received. Eligible students will be sent a notice of eligibility when the credentials are received and a $50 deposit will be requested. After the $50 has been paid a Notice of Admission will be sent to the student. As soon as all work is completed, applicants must also send a final transcript. Unsatisfactory academic performance, reduction of accumulative grade average to below a 2.3, or failure to submit the final transcript by August 1 will make the admission subject to cancellation.

TRANSFER OF CREDITS

Since Washington State University is on the semester system and all of the community colleges in Washington are on the quarter system, credits will be changed by multiplying by two-thirds, i.e. ninety quarter hours will transfer as sixty semester hours. To graduate from Washington State University 120 semester hours are required plus the required physical education activity courses. If programs are planned carefully, students will neither lose credit not time in transfer. All students transferring from two-year schools will be required to do at least two years work (60 semester hours) at a four-year degree granting institution.

The Admissions Office evaluates the general university requirements. The records are then sent to the major department for evaluation of departmental courses. All other courses are given credit as unassigned hours toward graduation.

FORMER STUDENTS RETURNING

Former students planning to return to Washington State University should write for information to the Admissions Office, Washington State University, clearly identifying themselves and date of expected re-enrollment.

HOUSING

Nearly ninety per cent of the students live on the campus in residence halls, fraternities and sororities, or in married student apartments.

Unmarried freshman men (under 21) and unmarried undergraduate women (under 21) must live in residence halls or organized group houses. Unmarried undergraduate women may live off campus provided they have completed ninety semester hours of academic work. Washington State University provides a limited number of housing units for married students. Assignments to such apartments are made in order of application. Application for either married housing or residence hall accommodations should be made at the earliest possible date. Please write to University Housing, Room 131, Rogers Hall, WSU, for married housing. For all other accommodations write to Director, Housing and Food Service, Room 124, French Administration Building.

Students planning to live in residence halls must pay a $25 security room deposit at the time of application for a room. Students planning to participate in sorority or fraternity rush should not submit the deposit. Transfer women students must have a 2.50 and men must have a 2.30 to participate in rush.

VISITATION PROGRAM

Each year a Washington State University representative visits each community college to talk to students who are planning a possible transfer to Washington State University. Many questions can be answered at that time, and it is advisable to inquire when Washington State University will be visiting at the community college.

Also, students are welcome to visit Washington State University at any time. It is best to make an appointment so that the necessary arrangements and appointments can be scheduled.

MILITARY TRAINING (ROTC)

While Washington State University does not require military training, a student may enroll in Army or Air Force ROTC in either his sophomore or junior year upon transfer. Detailed information may be obtained from either the Department of Military Science, Room 205, Johnson Hall, or the Department of Aerospace Studies, Room 183, Johnson Hall.

SCHOLARSHIPS AND LOANS

Transfer students may apply for undergraduate scholarships and loans. For information please write to Scholarships and Student Aids Committee, Room

442, French Administration Building. The deadline for a scholarship application is February 15.

FOR FURTHER INFORMATION

All other rules and regulations governing Washington State University students will be found in the General University catalog. For clarification of questions and for general information, please write to:

WASHINGTON STATE UNIVERSITY

GENERAL UNIVERSITY REQUIREMENTS

Below are the General University requirements for graduation from Washington State University. On the following twelve pages are listed the courses from each community college which will be accepted toward meeting these requirements. General University Requirements may be met in many instances by courses also meeting departmental requirements as long as they are not in the student's major field.

English Composition	3 semester hours - This requirement may be met at all community colleges by completing English 101 and 102. (English 101 only for colleges having a a five quarter hour course).
Physical Education	4 consecutive semesters, minimum 2 quarters different activity each school year, recommend 3 quarters.
Humanities and Social Sciences	12 semester hours to be chosen from the courses listed for each institution. At least 3 semester hours must be in humanities and 3 semester hours in social sciences. In the College of Sciences and Arts, the College of Education (Elementary Education), Industrial Arts, and the Department of Economics (including geography), the requirement is 21 semester hours of humanities and social sciences, of which at least 6 semester hours must be in humanities and 6 semester hours in social sciences.
Sciences	12 semester hours to be chosen from the courses listed. At least 3 semester hours must be in biological science and 3 semester hours must be in physical science. The requirement in the College of Sciences and Arts is 4 courses totaling 12 semester hours. All students must earn at least 2 semester hours credit for laboratory work. (One hour of lab credit is earned by spending 3 hours per week, for one semester, in the laboratory.)
Foreign Language	Students whose majors are in the Sciences and Arts or in Economics (including geography) and who have not completed 2 years of one language in high school must complete one year of a language in college.

AGRICULTURE TRANSFER PROGRAM

Students within the College of Agriculture choose majors in one of the following departments:

Agricultural Economics
Agricultural Engineering
Agronomy
Animal Science
Entomology
Forestry and Range Management
General Agriculture
Horticulture
Plant Pathology

Most of the agriculture courses are taken during the junior and senior years. The freshmen and sophomore years will include some agriculture courses but generally are devoted to courses, other than agriculture, required by the university and the department in which the student might major.

Students planning to transfer to Washington State University should study the WSU catalog and give special attention to courses normally completed during the freshman and sophomore years.

The Director of Resident Instruction or the chairman of the department in which the student is interested will answer questions about course scheduling which might arise for prospective transfer students.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting general university requirements.

[1] Students with good background in high school chemistry will take Chemistry 105 and 106 at WSU. Those with poor background will take Chemistry 101, 102, and 120.

[2] Students with poor records in high school mathematics or poor scores on mathematics placement tests will take Mathematics 101 at WSU. Otherwise, Mathematics 107 will be the initial mathematics course. It is strongly recommended that students complete Mathematics through college algebra and trigonometry at the community college.

[3] Normally all community college agriculture courses numbered 100 and 200 will be accepted for transfer to WSU.

Big Bend Community College, Agriculture 101, 102, 203, 231, 241, 244 and 252
Centralia College, see Agriculture instructor for transferability of agriculture courses
Clark College, Agriculture 101-105 inclusive and Agriculture 203
Green River Community College, Agriculture 101-104 inclusive and Agriculture 201 and 209
Skagit Valley College, Agriculture 101, 102, 103 and 105
Wenatchee Valley College, Agriculture 101, 102, 105, 107, 108, 203 and 204
Yakima Valley College, Agriculture 101, 102, 103, 105, 106, 107, 108, 118, 151, 201, 202, 203 and 204

[4] Transfer to the College of Agriculture from a community college that does not offer agriculture courses is possible. Such a student should be sure to take the courses listed for his or her college.

[5] Students interested in the area of plant sciences should take basic botany and students interested in the area of animal sciences should take basic zoology if there is no equivalent to Biological Science 103, 104.

ARCHITECTURE TRANSFER PROGRAM

If the student is uncertain as to his choice of courses before transferring to Washington State University, he should write to the department for information and counsel.

The courses leading to a degree of Bachelor of Architecture that are accredited by the Association of Collegiate Schools of Architecture are five years in length. Our curriculum includes a four-year sequence in architectural design. This means that the student entering this department should plan to spend four years at Washington State University.

Students who find it advantageous to remain at a community college for two years should be advised that it will be necessary to spend four additional years at Washington State University to complete the five year degree program in architecture.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting the general university requirements.

[1] Students are advised to complete not less than two quarters of analytic geometry and calculus at the community college. If this is not possible, then they are advised to take Mathematics 207 at Washington State University during their sophomore year.

[2] This course may be taken at Washington State University during the sophomore year.

BELLEVUE COMMUNITY COLLEGE

BACTERIOLOGY AND PUBLIC HEALTH, BOTANY, OR ENTOMOLOGY TRANSFER PROGRAM

For students wishing to enter the fields of bacteriology and public health, botany, or entomology, the following course equivalents at Washington State University are indicated. The WSU catalog should be consulted for the exact requirements in each option. Specific scheduling problems should be referred to the Chairman of the Department concerned.

Students planning to enter the fields of plant physiology, plant genetics, plant ecology and related areas should obtain an early concentration in the basic courses of chemistry, mathematics and physics.

Students majoring in bacteriology must have an elementary course in bacteriology during their first two years at the community college or they will find it necessary to remain at WSU for a longer length of time.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting the general university requirements for graduation.

[1] Not required if two years of one foreign language completed satisfactorily in high school.

[2] One year of organic chemistry is required for entomology majors.

[3] Bacteriology and Public Health majors only.

[4] Students receiving a grade of "B" or better in the basic bacteriology course at the community college may substitute it for Bacteriology 201 at WSU. Required for Bacteriology and Public Health or Botany majors only.

[5] Botany majors only.

[6] Students who have not selected chemistry courses equivalent to 105 and 106 will be required to take Chemistry 120 at WSU in order to qualify for advanced chemistry courses.

BELLEVUE COMMUNITY COLLEGE

Washington State University	S.H.	Bellevue Community College	Q.H.

P. E. (one activity each semester)		P. E. (one activity each quarter)	

BUSINESS ADMINISTRATION TRANSFER PROGRAM

It is understood that Business Administration is a professional field of training in which the community college will give only preprofessional training in economic principles, one year of work in accounting and business law. The following tabulation shows the courses which would normally be taken in the first two years at Washington State University and indicates the acceptable equivalents at the community college.

*See pages 1-12 and the WSU Catalog for courses meeting the general university requirements.

[1] Not open to freshmen.

BELLEVUE COMMUNITY COLLEGE

Washington State University	S.H.	Bellevue Community College	Q.H.
English 101	3	English 101, 102	6
English 201	3	No Equivalent	-
[1]Economics 102, 203	6	Economics 200, 201	10

ECONOMICS TRANSFER PROGRAM

The courses listed are those which a student transferring to Washington State University should normally have completed within the first two years. If he transfers at the end of the first year, a student should have made appropriate progress on his schedule of courses.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting the general university requirements.

[1] Not open to freshmen.

[2] The mathematics requirements imply that if a student has sufficient mathematical background to be excused from intermediate algebra on the basis of the mathematics placement test score he would be in a position to select a free elective. Economics majors are advised to take as much mathematics as is practicable.

BELLEVUE COMMUNITY COLLEGE

EDUCATION TRANSFER PROGRAM

Students planning to transfer to Washington State University to complete requirements to teach should check carefully the WSU catalog regarding available programs and subject matter requirements for teaching majors and minors. Programs will vary from student to student, but a certain core of preprofessional courses should be included in the community college program.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting the general university requirements. Those preparing for junior and senior high school teaching must meet general university requirements of their teaching major subject matter department.

**Secondary education majors in Business Administration, Agriculture, Home Economics and Physical Education need only take 12 semester hours of social science and humanities to meet General University Requirements.

[1] See the 1968-70 WSU Catalog for descriptions of acceptable teaching majors and minors. In most cases, junior and senior high school teacher training requires a 30-semester-hour majors and a 15-semester-hour minor. There are a few 45-semester-hour majors with no minor required. Students preparing to teach at the elementary level will be required to complete a 30-semester-hour subject matter major in an acceptable field.

[2] Recommended for elementary majors only.

ENGINEERING TRANSFER PROGRAM

If the student is uncertain as to his choice of courses before transferring to Washington State University, he should write to the department concerned for information and counsel.

When a transfer student arrives at WSU he will meet with an advisor who will discuss with him the course work he has previously completed. He will then be advised as to where in the sequence of courses he is best prepared to start so that he can be successful in his studies at WSU.

It should be noted that Mathematics 101 (the equivalent of the conventional third semester of high school algebra) is considered as required preparatory work and cannot be counted for credit toward an engineering degree. Footnote one should be carefully read by all students.

The attention of transfer students is called to the special requirements of certain departments as follows:

Chemical engineering transfer students should be particularly well grounded in beginning chemistry work. Special emphasis on chemistry preparation is also observed in physical and extractive metallurgy.

Civil engineering at Washington State University requires advanced surveying courses which are given only at Summer Survey Camp and are normally taken between the sophomore and junior years.

Electrical engineering requires three professional courses (E.E. 231, 261, 262, or their equivalents) in the sophomore year as a prerequisite for the junior courses required in that curriculum.

Humanities and Social Sciences Requirements.

Engineering students are required to complete 18 semester hours of humanities and social sciences course work prior to graduation. Humanities courses include literature, fine arts, and philosophy. Social sciences courses include sociology, psychology, economics, history and government. At least six hours must be completed in each of the two areas and depth of study in one subject is preferred over a selection of courses in various subjects. Much of this course work along with the English composition course and the biological science elective can be completed at the community college.

Engineering students may find it to their advantage to complete their first two years at the community college. However, it will then probably require a semester more than two years at WSU to complete their degree program. Chemistry, Physics and Mathematics sequences should be completed prior to transfer because completion of the sequence at WSU may require repeating material already studied.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting general university requirements.

[1] If analytic geometry and calculus are taught at the community college in a three-course sequence, students are advised to complete not less than two courses prior to transfer, since if only one of the courses is completed, the student will find it necessary to begin in Mathematics 207 at WSU thereby repeating material already studied and losing some transfer credit.

If analytic geometry and calculus are taught in a four-course sequence the student should complete either two or all four courses prior to transfer. The first two are equivalent to Mathematics 207 at WSU and the last two are equivalent to Mathematics 208.

If taught in a five-course sequence, the student should complete either two or all five courses prior to transfer. The first two are equivalent to Mathematics 207 at WSU and the last three are equivalent to Mathematics 208.

[2] Civil engineers should take a basic microbiology (bacteriology) course as the biological science elective.

76/77

FORESTRY OR RANGE MANAGEMENT TRANSFER PROGRAMS

This department grants two separate degrees: B.S. in Forestry, and B.S. in Range Management. Good career opportunities are open in both, but traditionally, fewer students have been aware of the range management opportunities. Training and careers are somewhat similar, but differ in detail. Both curricula are strongly science-oriented. Specific scheduling problems should be referred to the Chairman of the Department of Forestry and Range Management.

Forestry--Students should concentrate on fulfilling general university requirements, as well as calculus, 8 semester hours of chemistry, 6 semester hours of biological science, 4 semester hours of physics, 4 hours of introductory soils, and 4 semester hours of introductory economics. In addition, the available professional courses in forestry would be useful. Two courses of dendrology should be taken if offered in the community college.

Range management--This curriculum gives training in botany, animal science (including wildlife), and soils, all integrated into range management problem solving capability. The pre-range management community college student should work toward completion of general university requirements, plus basic science courses as available. These include the social science, especially economics, and humanities electives, plus 6 semester hours of biological science (or botany), chemistry through organic, mathematics through trigonometry, and physics. Where community colleges have soils and animal science courses which are transferable, these also may be added to the transfer program.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting the general university requirements.

[1] Not open to freshmen.

[2] Range management only.

[3] Forestry only.

[4] Initial placement in a math course will depend upon placement examinations. All students are required to complete college algebra and trigonometry.

[5] Students who have not selected chemistry courses equivalent to 105 and 106 will be required to take Chemistry 120 at WSU in order to qualify for advanced chemistry courses.

HOME ECONOMICS TRANSFER PROGRAM

Below are freshman and sophomore courses normally completed at Washington State University by home economics majors and the community college equivalents. The WSU catalog should be consulted for exact requirements in the various major programs available. Students with specific scheduling problems should correspond with the department chairman or the Dean of the College of Home Economics.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting the general university requirements.

[1] Not open to freshmen.

[2] Students planning to major in Home Economics Education may follow the A or B Programs. In the A Program three semesters of chemistry are required in addition to physiology and bacteriology (or home nursing). In the B Program no chemistry is required. For those students planning to major in Child Development, Interior Design, or Clothing, chemistry is not required. Both A and B programs lead to the Bachelor of Science degree and qualify the student for the vocational certificate.

Students who have not selected chemistry courses equivalent to 105 and 106 will be required to take Chemistry 120 at WSU in order to qualify for organic chemistry.

BELLEVUE COMMUNITY COLLEGE

HUMANITIES TRANSFER PROGRAM

COMMUNICATIONS, ENGLISH, FINE ARTS, FOREIGN LANGUAGE, MUSIC, PHILOSOPHY, SPEECH

For students wishing to enter the fields of communications, English, fine arts, foreign language, music, philosophy, or speech, the following course equivalents for the freshman and sophomore years at Washington State University are indicated below. If the student is uncertain as to his choice of courses before transferring, he should write to the department concerned for information and counsel.

Footnotes:

*See pages 1-12 and the WSU catalog for those courses meeting the general university requirements.

[1] Not required if two years of one foreign language completed satisfactorily in high school.

OFFICE ADMINISTRATION TRANSFER PROGRAM

The following schedule of studies for the freshman and sophomore years for office administration majors assumes no previous instruction in secretarial subjects. Students with one or two semesters of high school typing must enroll in Office Administration 102 at WSU, those with three or four semesters must enroll in Office Administration 203. Students with two or three semesters of high school shorthand must enroll in Office Administration 206 and 209; those with four semesters must enroll in Office Administration 208 and 210. Specific problems should be referred to the Chairman of the Department of Office Administration.

Footnotes:

*See pages 1-12 and the WSU Catalog for courses meeting the general university requirements.

[1] Not open to Freshmen.

TRANSFER PROGRAM FOR PHYSICAL EDUCATION, RECREATION, AND PRE-PHYSICAL THERAPY FOR MEN AND WOMEN

For students wishing to enter the fields of physical education, recreation or prephysical therapy (men and women), the following course equivalents at Washington State University are indicated. The Washington State University catalog should be consulted for exact requirements in each option. Students with specific scheduling problems should correspond with the department chairman.

Physical Education majors and Recreation majors should complete as many of the general university requirements as possible, especially the science requirements. Physical Education majors should take activity classes in the areas of swimming, modern dance, and fundamentals of movement. Recreation majors are urged to delay taking First Aid until the semester of their field work.

Prephysical therapy majors should complete one full year of inorganic chemistry, one course in biological science, and one course in general physics prior to transfer. These should be completed in addition to human physiology.

Footnotes:

*See pages 1-12 and the WSU catalog for courses meeting the general university requirements.

PHYSICAL SCIENCES TRANSFER PROGRAM
BIOCHEMISTRY, CHEMISTRY, GEOLOGY, MATHEMATICS AND PHYSICS

For students wishing to enter the field of chemistry, geology, mathematics or physics, the following course equivalents for the freshman and sophomore years at Washington State University are indicated below. If the student is uncertain as to his choice of courses before transferring, he should write to the department concerned for information and counsel.

Students who have not selected chemistry courses equivalent to 105 and 106, will be required to take Chemistry 120 at WSU in order to qualify for advanced chemistry courses.

Footnotes:

*See pages 1-12 and the WSU catalog for courses meeting the general university requirements.

[1] Mathematics majors are required to complete at least one and a half years of study in either German, French, or Russian.

Chemistry majors are required to study German for at least one and a half years.

Geology and Physics majors are required to have only one year of a foreign language unless they have completed two years of one foreign language in high school.

[2] Not required for mathematics majors.

[3] Mathematics and Geology majors may substitute general physics for the engineering physics. Geology majors need not take physics until after they transfer to WSU.

[4] Geology majors are only required to take mathematics through analytical geometry.

[5] Geology majors only.

[6] An additional semester of English composition is required for majors in chemistry. It is strongly recommended that chemistry majors take three quarters (or two quarters for those colleges having five hour courses) of composition at the community college.

BELLEVUE COMMUNITY COLLEGE

Washington State University	S.H.	Bellevue Community College	Q.H.

POLICE SCIENCE AND ADMINISTRATION TRANSFER PROGRAM

For students wishing to spend one or two years at the community college prior to entering the Department of Police Science and Administration at WSU, the following course equivalents are listed. By following the schedule as closely as possible while at the community college and taking more than one police science course each semester at WSU, the student will be able to complete the four-year degree curriculum on schedule.

Students with specific problems of scheduling should correspond with the department chairman for assistance.

Footnotes:

*See pages 1-12 and the WSU catalog for courses meeting the general university requirements.

[1] Not required if two years of one foreign language completed satisfactorily in high school.

BELLEVUE COMMUNITY COLLEGE

Washington State University	S.H.	Bellevue Community College	Q.H.

PRE-PHARMACY TRANSFER PROGRAM

The pharmacy curriculum is divided into one preprofessional year and four professional years. To be eligible for admission to the professional years in the College of Pharmacy, a student must have successfully completed the courses listed in the prepharmacy year, or their equivalents, and have at least a 2.30 grade average. Also, the grade average made in the biological and physical science and mathematics courses must be at least 2.30. A transfer student must present at least thirty (30) semester hours or forty-five (45) quarter hours of acceptable credit. Determination of admission to the College of Pharmacy will be based upon the total evidence required including the academic record, tests results, recommendation and a personal interview.

Students planning to transfer to the WSU College of Pharmacy are expected to arrange for an interview with a representative of the College selected by the Dean.

Students with specific problems of scheduling should be urged to correspond with the Dean of the College of Pharmacy.

In exceptional cases students with superior records may transfer into the pharmacy program at the beginning of the second professional year if all of the non-professional courses in the second year as well as those in the prepharmacy year have been satisfactorily completed and the over-all grade point average meets the same requirements as established for the preprofessional year. Arrangements may be made to make up the work required in the professional courses ordinarily taken in the first professional year. Such a transfer student must present at least sixty (60) semester hours or ninety (90) quarter hours of acceptable credit.

Footnotes:

*See pages 1-12 and the WSU catalog for courses meeting the general university requirements.

[1] Ten quarter hours of basic biological science will satisfy the requirement for Biological Science 103, 104.

[2] Students who have not selected chemistry courses equivalent to 105 and 106 will be required to take Chemistry 120 at WSU in order to qualify for advanced chemistry courses.

[3] Organic chemistry is extremely important to later study in pharmacy. A minimum of 10 semester hours or 15 quarter hours is required. Students planning to remain two years at the community college and who are unable to obtain 15 quarter hours of organic chemistry should correspond with the Dean of the College of Pharmacy.

[4] Completion of three quarters (or two quarters for colleges having five quarter hour courses) of freshman composition will satisfy the College of Pharmacy requirement for English 101 and 201.

PRE-VETERINARY MEDICINE TRANSFER PROGRAM

At least six years and one summer session are required to obtain a degree in veterinary medicine. The first two years of pre-professional study can be taken at any institution having courses equivalent to those taught at Washington State University. The last four years are professional study and are conducted by the College of Veterinary Medicine.

Applicants for admission to the College of Veterinary Medicine should present at least sixty semester hours of acceptable credit from a recognized college or university, exclusive of military science and physical education. The sixty semester hours in the following program should include courses that will meet the general university requirements for graduation from Washington State University.

		S.H.
Electives in Social Science and Humanities (not less than 3 hours in each field)		12
To be selected from the list of General University Requirements		
English Composition.		3
Physical and Biological Sciences		21-31
Preferential consideration will be given to applicants who have completed courses as indicated in each of the following:		
Zoology:	Including principles of cytology, evolution, ecology, and genetics.	
Chemistry:	Including organic (with laboratory).	
Physics:	Including electricity, optics and sound.	
Mathematics:	College level algebra and trigonometry, or equivalent.	
Electives.		14-24
Recommended:	Advanced writing, business administration, public speaking, animal breeding and production, general or agricultural economics and additional courses in the physical and biological sciences.	
Total Hours Required		60

---

*See pages 1-12 and the WSU catalog for courses meeting the general university requirements.

[1] Ten quarter hours of basic biological science will satisfy the requirement for Biological Science 103, 104.

[2] Students who have not selected chemistry courses equivalent to 105 and 106 will be required to take Chemistry 120 at WSU in order to qualify for advanced chemistry courses.

SOCIAL SCIENCES TRANSFER PROGRAM

ANTHROPOLOGY, HISTORY, POLITICAL SCIENCE, PRELAW, PSYCHOLOGY, AND SOCIOLOGY

For students wishing to enter the field of anthropology, history, political science, prelaw, psychology or sociology, the following course equivalents for the freshman and sophomore years at Washington State University are indicated below. If the student is uncertain as to his choice of courses before transferring, he should write to the department concerned for information and counsel.

Footnotes:

*See pages 1-12 and the WSU Catalog for those courses meeting the general university requirements. Students will fulfill many of their general university requirements by taking the additional courses listed for each major.

[1] Not required if two years of one foreign language completed satisfactorily in high school.

ZOOLOGY, PREMEDICINE, PREDENTISTRY AND WILDLIFE BIOLOGY TRANSFER PROGRAM

For students wishing to enter the fields of zoology, wildlife biology, zoophysiology, premedicine, or predentistry, the following course equivalents at Washington State University are indicated. The WSU catalog should be consulted for the exact requirements in each option. Specific scheduling problems should be referred to the Chairman of the Department concerned.

Premedical and predental students should plan to take basic science courses in both institutions in order to strengthen their chances of being admitted to professional schools. If a predental student expects to apply to a professional college at the end of three years of college work, it is recommended that he transfer to WSU at the end of one year of work in a community college. This will enable the predental adviser to instruct the student and to become better acquainted with him and with the quality of his work. This is necessary if the adviser is to render maximum assistance in placing the student in a professional school.

If the premedical or predental student anticipates taking a Bachelor of Science degree before applying to a professional school, two full years in a community college are quite satisfactory. The program is formulated with this plan in mind. It is also satisfactory for students who plan to take their Bachelor of Science degree in zoology at WSU.

Footnotes:

*See pages 1-12 and the WSU catalog for courses meeting the general university requirements for graduation.

[1] Not required if two years of one foreign language completed satisfactorily in high school.

[2] Zoology and Wildlife Biology majors only.

[3] Students who have not selected chemistry courses equivalent to 105 and 106 will be required to take Chemistry 120 at WSU in order to qualify for advanced chemistry courses.

BELLEVUE COMMUNITY COLLEGE
